

Chag-o-Power™

Emulsion of Wild Chaga Mushroom—Sublingual Drops

This is the most potent wild mushroom extract known. This is no common mushroom. Chaga-o-Power is made from the rare chaga fungus found only on a rare amount of wild birch trees. It is emulsified in organic extra virgin olive oil, the legendary oil of wild oregano P73, and a multiple spice extract, for efficient delivery and speedy benefits. For thousands of years chaga has been revered throughout the world as a precious “Gift from God” and nature’s “King of Herbs.” Ancient Asian folk medicine practitioners relied upon chaga in a tea or powder form to maintain a healthy life balance.

Chaga also contains a wide range of nutrients in significant quantities. Twenty to fifty drops per day taken sublingually provide a potent source of betulin and betulinic acid. It is an excellent source of B vitamins and also minerals. The primary active ingredients in chaga are a variety of triterpenes and sterols, including lanosterol, ergosterol, inotodials, saponins, and polysaccharides. Thus, Chag-o-Power is incomparable in its wild and raw powers.

An excellent source of potent antioxidants, chaga is also the world’s top source of the powerful antioxidant enzyme SOD (superoxide dismutase). The ORAC status of chaga is significant, at 14,000 units per three ounces. Anything above 500 is considered exceedingly powerful. Very few Westerners had heard of chaga before the great Russian novelist Aleksandr Solzhenitsyn introduced it in one of his novels. He wrote, “He could not imagine any greater joy than to go away into the woods for months on end, to break off this chaga, crumble it, boil it up on a campfire, drink it and get well, like an animal.”

Chaga is the subject of intensive research. Modern research is beginning to unlock the secrets of this powerful natural medicine, so revered throughout antiquity. It is now known: whole food supplements are more effective than isolated compounds extracted from these natural products.

Experience the power yourself. Introduce your family and friends to this natural, wild power. Place the drops under the tongue, let them absorb for a minute, and consume the remainder. This is the beginning of your better health through the wild, raw powers of chaga.

Directions: Take 20 or more drops under the tongue or in juice or yogurt daily. For an active lifestyle, take as often as needed. Shake well before using.
