

ChagaCreamTM facial treatment

Wild, Raw Chaga Mushroom-Plus

A truly exotic facial treatment and more, ChagaCream *facial treatment* is the most natural and wholesome of all creams. It is a whole food facial cream made from the most rare and raw ingredients available. Unlike other creams and facial systems, ChagaCream is free of any artificial substances. It is completely natural—just what your face needs.

The ingredients include SOD- and melanin-rich wild, raw chaga extract, oil of wild bay leaf, oil of myrtle, and oil of lavender. ChagaCream *facial treatment* also contains royal jelly, rose water and raw black raspberry extract. The melanin from the chaga and the raw black raspberry extract help ChagaCream tone the skin while nourishing it like no other. This natural cream makes skin soft and smooth. Ideal for dry, cracked or irritated skin, it is perfect for the face and hands but can be used anywhere on the body. Use especially where healing is needed.

ChagaCream *facial treatment* is enhanced with aromatic Mediterranean flower and leaf oils. When combined, these natural ingredients are more protective and rejuvenating than synthetic creams. In an organic beeswax base, all the ingredients are wild and whole—it is completely edible. It is just what your face deserves.

Directions: To use ChagaCream *facial treatment*, rub a small amount on normal, damaged, or aging skin. When applied to facial skin, slight heat sensation is normal. For best results, apply daily. Product may stain clothing.
