

ChagaCream™ skin treatment

Wild, Raw Chaga Mushroom-Plus

There is nothing else comparable to ChagaCream *skin rejuvenation*. With the power and nutrition of raw chaga it truly proves why this wild plant is called the “Gift of God.” For centuries chaga has been used for skin treatment. The Chinese hold it in highest regard as the most supreme of all natural medicines, calling it the “King of Herbs.” ChagaCream is a way to introduce the power of chaga into your skin.

This rich, potent, wild cream contains the power of the wild, raw, chaga mushroom extract with oils of wild oregano, bay leaf, sage and cumin. That’s why it penetrates deeply into skin tissues. In an organic beeswax base, this skin therapy can be used on any region of the body. ChagaCream *skin rejuvenation* is ideal for cracked or irritated skin. It solves any dryness quickly. Also use directly on spine or joints to support healthy skin against inflammation.

ChagaCream *skin rejuvenation* is a natural source of antioxidant enzymes, such as superoxide dismutase (SOD). It is also a dense source of the powerful antioxidant cell pigment melanin. Only a dab is needed to benefit dry, chapped or irritated skin. Because it is 100% raw, the enzymes and nutrients remain completely intact. Awaken your skin with the power of chaga and feel the difference. Drive the all-important SOD and melanin into your skin tissue. You will know its powers by using it often!

Directions: To use ChagaCream *skin rejuvenation*, rub a small amount on normal, damaged, or aging skin. When applied to skin, slight heat sensation is normal. For best results, apply daily. Product may stain clothing.
