

Health-Bac™

Friendly Bacteria Supplement / Broad Spectrum Probiotic Three Billion CFU

Friendly bacteria are required for ideal health. The body needs them for normal digestion. These friendly bacteria are powerful in their functions but are readily damaged or even destroyed by everyday toxins. Plus, antibiotics thoroughly devastate them. Also, they are depleted by stress, processed foods, and pharmaceutical drugs. That is why it is a good idea to regularly replenish them.

Problems exist with some probiotics today. Many probiotics, or friendly bacteria supplements, contain bacterial strains or species that are not proven to readily implant in the human digestive tract and, therefore, may suffer from reduced efficacy. Also, many probiotics are potentially contaminated due to their low-quality source. Porcine- or swine-sourced probiotics are also common. They may contain residual contaminants from processing, including noxious swine pathogens. Plus, they are unfit for vegetarians.

Health-Bac is the highest quality and most natural friendly bacteria supplement available. It has been clinically demonstrated to survive the intestinal tract and successfully implant in the human gut. Health-Bac is a broad-spectrum probiotic, containing nine friendly bacteria strains. All strains present in Health-Bac are 100% natural, plant-based, and free of any foreign contaminant or genetically modified organism.

Health-Bac contains the Ecologic 500 formula. This is the most researched and tested probiotic formulation known. Ecologic 500 includes the following healthy bacteria strains: Bifidobacterium infantis, Bifidobacterium lactis, Bifidobacterium longum, Enterococcus faecium, Lactobacillus acidophilus, Lactobacillus paracasei, Lactobacillus plantarum, Lactobacillus salivarius, and Lactobacillus lactis. Also, the strength of this broad-spectrum friendly bacteria supplement is boosted by prebiotics fructooligosaccharide (FOS) and inulin.

The word "probiotic" means "for life." So, for life take Health-Bac.

Directions: Dissolve 1 teaspoon (3 grams) of Health-Bac powder in a glass of lukewarm water and drink. For best results, take at bedtime at least three hours apart from any P73 products. Always use Health-Bac when taking Oreganol P73 or OregaRESP daily. Health-Bac can be taken with OregaMax. Does not need refrigeration.

Supplement Facts

Serving Size: 3 grams

Amount Per Serving	% Daily value
Proprietary blend Ecologic 500	
Bifidobacterium infantis	*
Bifidobacterium lactis	*
Bifidobacterium longum	*
