

# Herbal PROTEC-X™

Formerly Herbal TICK-X (enhanced formula)

## Professional Strength Repellent Spray

Get the major protection you need from crawling insects and much more through the powers of wild spice and medicinal flower oils. It really works, and that's why it's called PROTEC-X.

Protect yourself from the danger of harmful bites through this powerful formula. This is the most potent formula available, based upon extensive scientific research. It has been fully established that spice oils have potent capacities as bug repellents. Among the most potent are oils of wild bay leaf and juniper, along with wild oregano and clove oil. African geranium oil is a powerful agent and offers a wonderful scent.

Research demonstrates that these oils act like a blockade—as powerful repellents—and that's what you need to safely be outdoors. Apply this formula as liberally as necessary for the protection you need.

Aromatic oils are health-giving, and the oils of Herbal PROTEC-X are no exception. It's so aromatic and wondrous that it makes an excellent, invigorating air cleanser and refresher.

Herbal PROTEC-X is unique, since it is completely nontoxic. It's safe for application on pets and children, even on babies, as well as pregnant women. Unlike chemical-containing sprays, it is so safe that it can be applied repeatedly without concern.

Herbal PROTEC-X also has a special capacity never seen in the synthetics. This is the ability to kill biting insects, including those that are attached to the body. The invader should be saturated with Herbal PROTEC-X, and then the saturation should be held gently against it with tissue or cotton until it dies and can, therefore, be safely removed.

Because Herbal PROTEC-X is an antiseptic, it prevents infection and irritation on the skin. It is also a repellent for home and garden, plus it is an effective mosquito repellent. It's concentrated, so usually only a small amount will prove effective.

So stay safe in the wilderness and outdoors, including your own backyard, with Herbal PROTEC-X. It's guaranteed potency, the power you need to protect yourself, your family, and your pets from all that bites and crawls.
