

# Quick-Alert™

Stay sharp and focused—100% caffeine free

This powerhouse of energizing nutrients will feed your adrenals and keep you sharp and focused all day. It's not the frantic energy you get from coffee, nor is it the unnatural extremes of a chemical-laden energy drink. Quick-Alert is a potent blend of natural ingredients that gives you the support you need to get things done.

Mental, physical, and emotional strength is what we all need to get through our daily demands. Be awake, alert, and full of life without the dangerous effects of chemicals and excessive caffeine.

**Siberian Chaga**—Concentrated to increase the density of its key active ingredients for super cellular support: superoxide dismutase (SOD), beta glucans, phenolic compounds, specialized plant sterols, melanin, and wild-source B vitamins. All of these substances are extremely biologically active and rich in oxygen, which is critical for cellular health and energy.

**Pomegranate Syrup**—A great source of the energy vitamins and antioxidants—tastes delicious too! Supports the circulatory and nervous systems.

**Honey**—Amino acids and glucose found in honey can provide a healthy boost in a short amount of time. Instead of consuming refined sugars and GMO high fructose corn syrup, which are found in many sports and energy drinks, opt for an all-natural dose of the aromatic wild honey found in Quick-Alert.

**Muscadine Grape Syrup**—Delicious and high in antioxidants, these natural sugars and rich nutrients provided in the finest muscadine grape syrup are a body's preferred source for energy.

**Wild Essences**—The unique, synergistic blend of oregano, rosemary, sage, Neroli orange blossom, and rose petal essences provides remarkable antioxidant effects that attack free radicals. These herbal hydrosols energize the brain with oxygen and produce natural benefits that support the digestive system and intestinal tract.

Quick-Alert supports energy and strength with two servings per bottle—that is plenty to get you through the day. You will feel the difference even after just one serving. However, on those tough days, which everyone has, one or more bottles are always beneficial. Mix it with juice or water. You will wonder how you got through a day without it!

ENJOY—it's good for you.
