

Triple Strength Premium Royal Jelly/Natural B Vitamins/High Potency Natural Nutrients

Royal Oil is the power of raw royal jelly in a sublingual form. This is a tasty way to eat royal jelly. Plus, with the addition of remote-source Austrian pumpkinseed oil, it is powerfully enhanced. Both royal jelly and pumpkinseed oil are potent sources of sterols, which give the body strength. Royal jelly is the most nutrient dense of all foods. It is this condensed and unique form of nutrition which is so potent that it transforms a regular worker bee into the queen bee. Queen bees live 24 times longer than a worker bee, plus they have the enormous task of laying over 2000 eggs per day. This vitality is from royal jelly, and that is exactly why people need Royal Oil.

Royal Oil is the only fresh and stabilized formula containing premium triple-strength royal jelly. This royal jelly does not require refrigeration and can go anywhere with you because it is stabilized. This means that you can get a nutritional boost when you need it. The premium royal jelly in Royal Oil is a remarkable source of B vitamins, especially pantothenic acid. Other B vitamins found in high amounts are niacin, riboflavin, and biotin. Royal jelly's unique nutritional abilities may also be attributed to its high content of enzymes, phytosterols, acetylcholine, collagen, and natural hormones. Additionally, there is a wealth of other natural and absorbable nutrients like vitamins D and E, potassium, phosphorus and other trace minerals.

The most well-known active ingredient in royal jelly is 10-hydroxy-2-decenoic acid (10-HDA). Royal jelly also contains other beneficial fatty acids, and modern research is now discovering some of the powerful effects of these natural substances. All of the unique compounds, as well as the powerful natural nutrients found in royal jelly, are nourishing to all cells and aid in fueling the body's natural regeneration process.

For added strength Royal Oil is fortified with extra virgin Austrian pumpkinseed oil and wild Mediterranean carob concentrate. The pumpkinseed oil adds dozens of unique nutrients, including essential fatty acids, vitamin E, niacin, chlorophyll, potassium, and phytosterols. The wild carob concentrate is added for preservation and palatability. It adds powerful natural antioxidants and is rich in minerals potassium and iron.

Discover the difference of real and powerful nutrition. Take Royal Oil and fortify yourself with the most potent source of nutrition known.

Directions: Take ½ teaspoon or more as often as needed under the tongue. Can be mixed in foods or beverages. Always use a clean utensil to avoid contamination. Everyone can benefit from this type of nutrition; share this unusual nutritional boost with anyone you know.
