

ScalpClenz™

Hair & Scalp Personal Care Treatment

Revive and revitalize your hair and scalp with the power of ScalpClenz shampoo and conditioner. Powerful beyond belief, this is a complete system for luxurious, vibrant hair and healthy scalp. It's ideal for scalp syndromes, including dandruff, itchy, flaky scalp, seborrhea, and hair loss.

ScalpClenz Rubbing Oil is a powerful way to optimize the health of the scalp, including the all-important hair follicles and sebaceous glands. Powered by oil of black seed, cold-pressed sesame oil, and oils of nettles, along with oil of wild oregano, rosemary, sage, fennel, and lavender, it is potent and invigorating. What a powerful combination it is, ideal for supporting the health of the hair shafts, while stimulating the growth of new hair.

ScalpClenz oil is also ideal for dry and troubled hair and scalp. Rubbing oil can be applied by the drop to a selected area or to the entire scalp and combed through the hair. When applied liberally, it is desirable and more beneficial to leave it on overnight. Cover with a shower cap or towel to keep your pillow clean. Shampoo in the morning with ScalpClenz Shampoo and use the conditioner for further hair and scalp care. Let some of the conditioner remain in the hair. Helps with balding and scalp issues.

This is an easy hair and scalp health system for the entire family. Even small children and pets will benefit from the ScalpClenz formulas.
