**Supports healthy muscle and energy function\***

## Protein Powder-PLUS with wild chaga, organic yacon, and 15% raw berry powder

What a powerful, complete, and sophisticated protein powder it is—NutriHEMP RAW. Your body needs complete protein for optimal health and to rebuild, especially for those who exercise. Yet, it is also needed by every cell in the body, just for maintenance. NutriHEMP RAW is complete based on a combination of sprouted brown rice protein plus raw hemp protein—the most biologically powerful plant protein combination known. Fortified with stabilized organic flax, rice bran, and rice germ, this is far more complete, nutritionally, as a protein powder than any other. Plus, NutriHEMP RAW also contains wild raw chaga, organic yacon, and red sour grape, along with, importantly, 15% wild blueberry or raspberry powder by weight. This makes it potent beyond belief. This also increases its nutritional value and its absorption. What huge power and strength a person feels when taking it! A mere 4 tablespoons provides 16 gms of biologically available protein, plus a wide array of other nutrients, including dense amounts of B vitamins, magnesium, and iron. B vitamins aid in protein digestion as well as assimilation. The organic yacon root powder plus blueberry or raspberry powder provides inulin (FOS), which stimulates the growth of the healthy bacteria. Also, wild blueberry and raspberry powders stimulate protein digestion and absorption.

### A full list of the ingredients is as follows:

- raw, organic, sprouted brown rice powder
- raw, organic hemp protein powder
- rice bran/rice germ
- organic yacon root powder
- organic whole food brown rice powder
- wild, raw chaga
- unique red sour grape powder
- wild blueberry or raspberry powder

With all such special wild components, including wild chaga, the ORAC is 38,400 per bottle for blueberry and 23,643 for raspberry.

**Directions:** Simply add almond or rice milk, or water, and drink daily. Or, add to smoothies or organic milk. Great in yogurt or over cottage cheese. An ideal addition to a raw egg shake. Also add to cereal.

May also be used in baking to fortify foods. It's ideal as a breakfast by itself, for people on the go, dieters, and athletes. Truly a whole food, it may be used as a meal replacement. See the difference quickly in hair, skin, and especially nails.

Highly digestible protein formula
