Herb & Spice**

Wild Orega O's™ Gummies

Great tasting gummies for on-the-go immune support*

North American Herb & Spice has done it again! The world's first oregano gummy, the world's first clean gummy, the world's first healthy gummy, and the world's first amazing tasting oregano gummy!

Only the best products make it to market from North American Herb & Spice. We don't accept cane sugar, tapioca syrup, citric acid from corn, or natural flavors. This clean gummy is the result of two years of research. The final gummy is unadulterated, results-driven, never compromised, and always made with the highest quality premium ingredients.

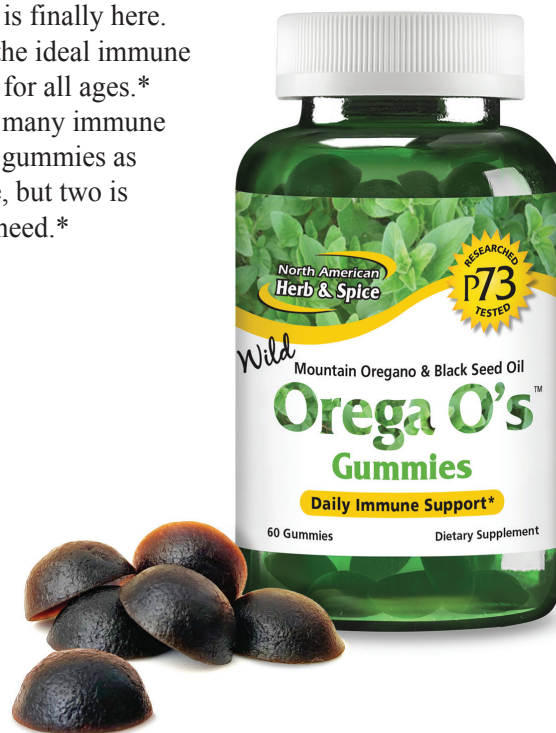

Combining raw, organic Peruvian yacon syrup with organic coconut blossom nectar, this gummy is a natural prebiotic for supporting healthy digestion and low glycemic for a healthy blood sugar response.* Our gummy base is unmatched and will not spike insulin levels like cane sugar and tapioca syrup. Natural flavors only need to be 80% from a natural source and often

contain propylene glycol (main ingredient in anti-freeze) plus many other carcinogens. North American Herb & Spice uses no flavors, just a dash of real concord grape.

North American Herb & Spice, the original oregano company, does it again. The P73 wild oregano is the only mountain-grown blend safe for daily use and scientifically studied at major universities.

This unique Orega O's oregano gummy is infused with black seed oil for a superior immune support response.* The world's first clean gummy is finally here. This is the ideal immune gummy for all ages.* Take as many immune support gummies as you like, but two is all you need.*
